Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Upon reviewing the proposed amendment submitted by the Attorney of Record on 17-November-2004, the examiner indicated that the proposed amendments would overcome the previous rejections made under 35. U.S.C 112, second paragraph, made to claims 19-24 and 26-38. The proposed amendments would further overcome the cited prior art with respect to independent claims 19, 26, and 34. Independent claims 39 and 43 were still met by the cited prior art referenced above. To overcome the cited prior art on claims 39 and 43, the examiner recommended that these claims also be amended to include similar recitations, as proposed for the other independent claims, as follows:

Independent claim 39 should recited --multiple-- or --a plurality of-- instead of "one or more" limitation in lines 8 and 10.

Independent claim 43 should recite --such that multiple domain names are registered in response to a single request from a user-- instead of "such that multiple domain names may be registered concurrently", in lines 12-13.

The attorney of record agreed to submit an official amendment based on the above made recommendations, upon receipt of which, the examiner will update the search and report the search results as appropriate.
